

Don't you just hate the holidays?

Holidays. Pinholes. Imperfections. Whatever you call them, the results are always the same – catastrophic. That's why Sherwin-Williams developed new Opti-Check™ OAP Technology. This technology allows tank lining applicators to instantly identify pinholes, thin spots or any other discontinuities under a UV light. Opti-Check™ virtually extends the coatings life by verifying uniform coverage and proper film thickness, eliminating coating application issues. So, increase your service life and eliminate your fear of the holidays.
