

A BIG CANVAS

HENN PAINTS LIFE INTO OIL TANKS

Eric Henn recently completed this soccer scene mural on a Citgo-owned petroleum tank in Dublin, Ohio. Using various shades and colors mixed from Sherwin-Williams Waterborne DTM Acrylic for the base coats and intermediate detail work, Henn ensured the longevity of the scene with a top coat of Diamond Clad Clear Coat.

Henn, a native of Fairfield, Ohio, has been using buildings and industrial structures for his murals since 1994, when Citgo first hired him to paint a seascape scene on a petroleum tank in Texas. He has since completed 1,000 such murals, 34 of which have been painted on petroleum tanks.
